TD Ameritrade

First Omaha Securities evolved into TD Ameritrade, and for over 35 years has remained a pioneer in an industry that continues to innovate new ways that make Wall Street more accessible to the individual investor. TD Ameritrade helped grow and improve the online trading experience for self-directed investors. The company started offering online options order entry and electronic trade confirmations via email. These innovations, along with extended-hours trading, the Ameritrade Online Investor Index™ (one of the first online investor behavior measuring tools, and trading via the SprintPCSSMWireless Web, the first of its kind via mobile device, helped keep Ameritrade at the forefront of a booming industry. In 2010 and 2011 the company embraced mobile devices by developing trading applications for the Android, iPhone, and iPad. And, in 2011, the company launched Trade Architect, a streaming web-based trading platform that brought together the best of thinkorswim and TD Ameritrade. Today, TD Ameritrade provides investing and trading services for nearly six million client accounts that total more than \$600 billion in assets, and custodial services for more than 4,000 independent registered investment advisors. With clients placing, on average, approximately 400,000 trades each day.

Yahoo Gemini search focuses on helping advertisers reach their target audiences at the moment the user has made a relevant search query. Yahoo Gemini connects advertisers with the audiences across its network, with the support of account teams, reporting, analytics and extensive campaign controls. Yahoo focuses on developing new search advisement formats, features and capabilities to engage users and optimize performance across devices, including click-to-call functionality, sitelink extensions, location extensions and product advertisements.
